2.1 Air temperatures >	**2.1.1 Setp. regulators >**							
		Room			0.1°C			
		Heat recovery			0.1°C			
		Cooling unit			0.1°C			
		Heating unit			0.1°C			
		Compensations:						
		Outdoor temp.		Active / Inactive				
		Summer		Active / Inactive				
	Supply air (room)				0.1°C			
	Extract air (room)				0.1°C			
	Outdoor air				0.1°C			
	Exhaust air (VEX)				0.1°C			
	Supply air (VEX)				0.1°C			
	Supply (CU)				0.1°C			
	External sensor				0.1°C			
	Heating coil				0.1°C			
	Cooling unit				0.1°C			
	Cooling coil supply air				0,1°C			
2.2 Airflows >								
	Supply air				1 l/s			
	Supply air				1 m^3/h			
	Extract air				1 l/s			
	Extract air				1 m^3/h			
	Return air				1 l/s			Applies only to VEX340
	Return air				1 m^3/h			Applies only to VEX340

Menu 2 - Operating readings >								
_menu	**__menu**	**___menu**	**____menu**	**Possible settings/reading**	**Resolution**	**Factory setting** (If the field is greyed out, the value is restored if menu 3.2.3 is reset)	**Setting changed: (+date)**	**NB**
2.3 MC parameters >								Menu shown if VEX unit has FC motors
	Supply air:							
	Maximum				0.1 Hz			
	Set point				0.1 Hz			
	Minimum				0.1 Hz			
	Extract air:							
	Maximum				0.1 Hz			
	Set point				0.1 Hz			
	Minimum				0.1 Hz			
2.3 MC parameters >								Menu shown if VEX unit has EC motors
	Supply air:							
	Maximum				1 RPM			
	Set point				1 RPM			
	Minimum				1 RPM			
	Extract air:							
	Maximum				1 RPM			
	Set point				1 RPM			
	Minimum				1 RPM			
2.3 MC parameters >								Menu shown if VEX unit has analog motors
	Supply air:							
	Maximum				0.1 V			
	Set point				0.1 V			
	Minimum				0.1 V			
	Extract air:							
	Maximum				0.1 V			
	Set point				0.1 V			
	Minimum				0.1 V			
2.4 Temp.reg. units >								
	Heat recovery				0.1%			
	Heating coil				0.1%			
	Heating pump unit				0.1%			
	Cooling unit				0.1%			
	Cooling recovery				0.1%			

Menu 2 - Operating readings >								
_menu	**__menu**	**___menu**	**____menu**	**Possible settings/reading**	**Resolution**	**Factory setting** (If the field is greyed out, the value is restored if menu 3.2.3 is reset)	**Setting changed: (+date)**	**NB**
	De-icing			Active / Inactive				
	De-icing step			0 – 7	1			
	Hibernation				1 s			Shows time remaining of hibernation period.
	Rise in pressure drop				1%			
	Tice				0,1%			
2.5 Pressure >								
	External pressure:							
	Supply air duct				1 Pa			
	Extract air duct				1 Pa			
	Filter pressure:							
	Outdoor air filter				1 Pa			
	Extract air filter				1 Pa			
	Heat Exchanger				1 Pa			
	Cooling coil exhaust				1 Pa			
2.6 Heating coil > (HCW and lHCW)								The menu is displayed if a HCW is selected
	Water heating coil:							
	Supply				0.1°C			
	Return				0.1°C			
	External return				0.1°C			
	Constant temperature				1%			
	Pump			Off, On				
2.6 Heating coil > (HCE)								The menu is displayed if a HCE is selected
	Electric heating coil:							
	Power step total				1			
	Active power steps				1			
	Set point				0.1%			
	TSA60/80				0.1°C			
2.7 CH cooling unit >								This menu appears if CH is selected in the menu “Accessories > Cooling Unit”.
	Comp. gas pressure				0,1 bar			

EXHAUSTO

Menu 2 - Operating readings >								
_menu	**__menu**	**___menu**	**____menu**	**Possible settings/reading**	**Resolution**	**Factory setting** (If the field is greyed out, the value is restored if menu 3.2.3 is reset)	**Setting changed: (+date)**	**NB**
	Suc. gas pressure				0,1 bar			
	Comp. gas temperature				0,1°C			
	Feed temperature				0,1°C			
	Increased airflow			No, Yes				
	Balance							
	Reduction				1%			
	Block start			No, Yes				
	Press. drop rise							
	CH Size			40, 50, 60, 70, 80		Factory-set		
2.8 CCW >								This menu appears if CCW is selected in the menu “Accessories > Cooling Unit”.
	Supply				0.1°C			
	Pump			Off, On				
2.9 CU cooling unit >								This menu appears if CU is selected in the menu “Accessories > Cooling Unit”.
	Compressed gas temp.				0.1°C			
	Compressed gas pressure				0.1 bar			
	Evaporator temp.				0.1°C			
	Reduction				0.1%			
	Blocked start			Active / Inactive				
2.10 MXCU >								This menu appears if MXCU is selected in the menu “Accessories > Cooling Unit”.
	Cooling unit			Off, On				
	Output				0.1%			
2.11 MXHP >								This menu appears if MXHP is selected in the menu “Accessories > Cooling Unit”.
	MXHP Module			Off, On				
	Heating/cooling status				Heat./cool.			

Menu 2 - Operating readings >								
_menu	**__menu**	**___menu**	**____menu**	**Possible settings/reading**	**Resolution**	**Factory setting** (If the field is greyed out, the value is restored if menu 3.2.3 is reset)	**Setting changed: (+date)**	**NB**
	Output				0.1%			
2.12 Timers >								
	Supply air motor			Timer	1 hr			
	Extract air motor			Timer	1 hr			
2.13 CO_2/RH sensors >								
	CO_2 level			0-2000 ppm	1 ppm			
	Humidity level			0-100%	1%RH
